Annie,

That's great! We haven't seen you or [REDACTED] in so long! I see Surren walking Shadow from time to time.

I haven't heard of anyone with food allergies to this point. As of today, we have you guys, Paul & Katie, Robin & family, Steve Boris and his girlfriend Christine (across the street from us) and Nancy and me. There may be a couple of others but right now we have 10 adults and maybe 3 kids. Would it be ok if we start at your house at 4:00 and then work our way down Birch St. and onto Summer? We'll probably end at our house.

We're looking forward to seeing you. Please give me a call with any questions. Thanks,

Phil Morton
[REDACTED]
